

Business Managers Message

Brothers and Sisters,

The month of July will bring with it a change in whom you have selected to lead this great Local for the next three years. I want to congratulate the newly elected officers and thank those that have served for the prior election cycle. On a personal note, I want to thank you all for allowing me to serve as your Business Manager for the last five years. It has indeed been an honor and a responsibility that I never took lightly. To me, the most rewarding part of my time served was the personal interactions that I had the good fortune to share with a great many of you. Thank you and know that I am a better person because of all of you. I am very proud of the advances that have taken place during my tenure, most importantly was the impressive increase in our membership. At the time of this writing, Local 354 has jumped from approximately 1460 active members to 2,145 since I first started. To know that we have been able to improve the standard of living for nearly 700 people that have chosen to work in the Electrical Industry is very comforting to me. For the last several years, Local 354 has not only led the 8th District in growth (our increase is as significant as some of the other locals), but we have also been an example for our innovative approaches to training and organizing.

I am also very proud of the construction and opening of our new training facility. The coordinated efforts of the Local and NECA are a testament to our commitment to advance our standing in the State of Utah. I am most proud of the personal touch that has been present at the Union Hall during my time here. None of the advances that have taken place were accomplished alone, and I want to recognize the folks that have worked alongside me during this time. My thanks goes to Tyler Judd, Mike Barney, Jake Foard, Brad Baugh, Jared Brydson, Connie O'Very and Samantha (Faith) Griffin for your dedication to serving the members of Local 354. The expanded social events and the individual attention you received when needed, speaks to the character of the people that have served you for the past years. The goal of every new Business Manager is to leave their Local in better shape than they found it, and I am comfortable to know that I have done just that. Again I want to thank you for life changing experience that you afforded me.

In Brotherhood,

Russell Lamoreaux
Business Manager
